RE: Volumatic Reference

To Whom It May Concern:

We are the distribution agent for the Counter Cache range of products in Australia, particularly the Counter Cache Intelligent (CCi).

We firmly believe that the Counter Cache range of products is one of the most uniquely designed, fit for purpose and robust products on the market today. The CCi gives our diverse customer base and an unrivalled leveled of visibility, control and flexibility over their cash cycle.

Crucial to our success in introducing the CCi into the Australian market is our relationship with, and the ongoing support we receive from Volumatic. I can unreservedly recommend Volumatic as business partners. The technical expertise, professionalism and willingness to engage with their customers make Volumatic a top tier manufacturer within the cash management industry.

If you would like further detail regarding my reference above please contact me on the below details.

Regards,

Matthew Olding
