22nd April 2013

Dear Mike

I am happy to endorse the quality of Volumatic's products and services.

We have been using the CountEasy cash scales in the back office and Counter Cache secure storage units at the point of sale for over 10 years in our stores. I am more than happy to endorse Volumatic because the products are excellent, easy to use and extremely reliable requiring very little maintenance and if service is necessary we know it will be dealt with in an efficient, timely manner. The helpline number is available to all stores as well as the box swap service.

Kind regards

Ady Houghton
Head of Audit
