

## TUI Travel UK

Volumatic have been supplying a number of our branches with note counters since 2010. The different range of products (Magner 35D, Magner 75D and Magner 150) suits us as we are able to use the counters in various sizes of branches ranging from desk bureaux to our superstores.

The note counters save our staff hours of valuable time and have improved accuracy in the branches banking reconciliation

The service and support from Volumatic has always been outstanding and they are always on hand to assist staff with any issues thanks to their great service contract

TUI Travel UK would have no hesitation in recommending the product and the company to other organizations
